BIO

An abstract and glitch artist with an active international presence, with over 20 years of experience in classical painting and more than 5 years of specialized activity in NFTs and Web3. My work has been exhibited in New York, London, Dubai, Amsterdam, Berlin, Chicago, and Qatar, and was featured on Apple Vision Pro in 2024.

ARTIST STATEMENT

My artistic philosophy is built on the idea of “breaking the image to reveal the truth beneath it”, an approach rooted in classical painting that has evolved toward abstraction and glitch. The female figure appears in my work not as conflict but as praise and a redefinition of identity, and Persian visual heritage, along with themes of self acceptance, identity, and peace, remain foundational to my practice.
